FIRE

Winnipeg, Sept. 1.
The town of Labelle, Quebec, is in flames.

DEATHS.

J. Charvet, hotel keeper of Eli, Man., was killed in trying to stop a runaway team.
Russell Woods, a C. P. R. engineer, was found drowned at Portage.
Two Kewatin, Ont., boys, W. Smith and D. Martin, were drowned.
J. McConnell, a Hamilton, farmer, dropped dead.

ACCIDENT.

A passenger train was hurled down its embankment by a tornado near Wisco, Minn.

RAINS DAMAGE CROPS.

Great damage has been done by rains in Minnesota and Dakota crops.

COAL FAMINE IN WINNIPEG.

Anthracite coal in Winnipeg is worth \$3 a ton and none is on the market.

IONS DEFEAT C. P. R.

The unions defeated the C. P. R. in Winnipeg in the ball league.

GENERAL.

There are reports of the prospect of a serious grain blockade in Western Canada in the near future.

The draw has been made for the Western Canadian Kennel club trials at Louisa, Man.

The Germans retaliatory grain tax on Canadian wheat is discussed by a Toronto man.

The archbishop of St. Boniface blessed the corner stones of the new Winnipeg academy.

A Virginia mine expert pronounced the Ontario mines as amongst the best.

Many Methodist conference delegates were the east for Winnipeg to-day.

The civil service bowling tournament in Winnipeg was successfully opened.

Lord Rosebery will take the stump in an autumn campaign.

A few harvesters left Toronto for the west on Saturday.

Saville won the futurity stakes at Sheepshead Bay.

Narragua and Colombia may go to war.

WEATHER AND CROPS.

The last week of August was in the main very favorable for ripening the crops. A high wind came up on Wednesday evening, which was followed by a light rain during Thursday, Friday, Saturday and Sunday were fine, as also today. There has been no frost, and the grain has not been lodged much by the wind. Cutting was in progress in all parts of the district during the week and will now be general. Barley is all or nearly cut. Wheat is partly cut and all ripe. Oats are being cut and a large proportion are ripe, while the remainder are safe. So far the weather has shown no sign of frost, but there is a coolness in the night air which tells that the heat of summer is over. The quality of the grain is unsurpassed and the yield will be large.

While the foregoing is true throughout the district at large information which has come to hand indicates that the hail storm of last Wednesday evening was the most destructive and widespread that ever visited this region. It has cut the heart out of the best grain producing parts of the district. So far as can be learned it began its destruction near the west end of Stony Plain. It came north easterly along the centre of the plain, reaching its greatest fury about Spruce Grove post office, where settlement is closest. When near the east end of the plain it turned sharply north across the Big Lake and into the St. Pierre settlement. Thence it turned eastward passing immediately in rear of the old St. Albert settlement and on to the Sturgeon river settlement, which it took bodily. Apparently it turned north easterly again and spent its force in the unsettled country north of the Saskatchewan and beyond the southerly bend of the Sturgeon. In all it traversed about forty miles of well settled country. No estimate can yet be formed of the amount of damage done. On Stony Plain the crop struck is generally a total loss. While on the Sturgeon it does not seem to have been quite so bad. The Rosenthal district of Stony Plain is reported unhurt, and along the southern edge of the plain the damage was slight. On the Sturgeon a considerable part of the crop struck will be cut, but the greater part is a total loss. A very rough estimate of the loss places the number of farmers affected at 200 losing an average of 3000 bushels of grain each. This would mean a loss of 600,000 bushels, of which about 200,000 would be wheat. All the grain was first class and the crop was just ready to cut. In fact cutting was begun and had made some progress in the district affected.

LOCAL.

Several cases of diphtheria are reported in town.

H. Acres, V. S., has gone to Calgary, to take in the fair.

The Red Deer baseball team came in on yesterday's special.

Lacrosse, Leduc vs. Edmonton, on the fair grounds this afternoon.

Mrs. Gilbert Berg and Miss Alma Berg went to Calgary this morning.

The new portion of the Queen's Hotel is being shelled with steel shingles.

The Methodist Epworth League intend holding a social on Tuesday evening.

Mrs. Haggith, of Exeter, Ont., is the guest of her brother, W. H. Parsons.

A score was loaded with goods for Paken on Saturday at the landing below the bridge.

The Baptist Sunday school are picnicing to-day on the H. B. flat near the fair grounds.

Thos. T. Kerl, of Spokane, arrived on Friday's train to look up investments in Edmonton lands.

W. F. Boddy left this morning for a two week's visit to Banff, stopping off at Calgary for the fair.

R. Haskill, of Red Deer, arrived Saturday night to visit his parents, Mr. and Mrs. R. L. Haskill, Namayo Ave.

Wm. and Barnett Schneider, brothers of Mrs. D. J. Collins, arrived on Thursday last from Iowa on a visit and prospecting tour.

Clutton Bros., butchers, have removed to the building formerly used by Towse Bros., as a paint shop, opposite their old stand.

Mr. and Mrs. Eugene Rubin, of the Pevoka Herald, visited Edmonton on Saturday and Sunday. They returned home this morning.

A. W. Cooper, of Brampton, Ont., arrived in town Friday evening, to look up the prospects for opening a dry goods business here.

Brick work is being pushed to-day on the new Windsor hotel and on the Blackfriars Steamship Co. building and on the McLeod hotel.

M. Aldous, H. B. Co. land commissioner, started on Friday for the Vermilion district accompanied by Mr. Perry, of Ross & Perry.

Base ball between Port Saskatchewan and Red Deer on the fair grounds this afternoon. Edmonton to play the winner. Game commenced at 1 p.m.

A. Ferland and J. A. Kirkpatrick arrived from Nelson, B. C., on Thursday to look over the Edmon district. Mr. Ferland is a former resident of Calgary.

A number of people from Edmonton and Strathcona left this morning for Calgary to attend the fair there, which begins to-day and lasts until Thursday evening.

Children's service took the place of the regular service in the Methodist church yesterday morning. Addresses were delivered by Rev. Mr. Buchanan, Rev. Mr. Hodgins and Rev. Mr. Green.

J. H. Trimble returned last week from a trip to the Vermilion district. On the way he met fourteen new binders on the road between Star and Fort Saskatchewan being taken eastward.

Frank Gray is erecting a building on the portion of his Main street lot not occupied by his paint shop. He will occupy the new building as a paint shop and rent the building at present occupied.

W. G. Altan, bridge foreman of Fort Saskatchewan, is preparing timber at Walter's mill for bridges over the Beaver Creek near Star. It will be rafted down as far as the mouth of Beaver Creek.

Amongst the pupils who attended the last term of the Edmonton high school are taking the normal course at Regina are Miss N. Pollard, of Fort Saskatchewan, Miss Olla Standish and Miss Addie McNay, of Lacombe, Jos. McCallum, of Beaver lake, G. B. Schunke, of Leduc, and John Wray, of Edmonton.

David Cline and Alex. Penner were brought in from Wetaskiwin on Friday and were taken to Fort Saskatchewan on Saturday to serve terms of six and two weeks respectively for failing to pay costs in cases in which they had information and were unable to establish their charges. They were committed by A. S. Rosenroth, M. L. A. J. P.

G. W. Dawson, inspector of penitentiaries for the Dominion and E. J. Adams, architect of the penitentiary branch of the justice department arrived on Friday's train to look over the jail property and make the final decision as to site. Of course the building will be erected by the department of public works and Mr. Dawson is not in a position to say how soon that department will order the erection of the building. Messrs. Dawson and Adams went to Fort Saskatchewan to-day to look into the accommodation afforded prisoners there. They are on their way now to the coast.

J. H. Montgomery returned last week from a visit to Dawson City.

Rev. J. C. Wace of the Sturgeon took the services in All Saints' church yesterday.

Col. Hughes, M. P., and W. McArthur, left for the east on Saturday. The Col. expects to return in a few weeks.

Jas. Dodd is outfitting for a trip to the Grand Prairie, of Peace river. He will start about the middle of the week.

On Thursday, the 25th, H. Visina was committed for trial by Insp. Belcher, J. P., on a charge of theft from the store of J. I. Mills. He was admitted to \$400 bail.

On Friday, Aug. 25th, J. Brunelle was committed for trial by Insp. Belcher, J. P., on a charge of fraud in connection with a loan on mortgage. He was admitted to \$400 bail.

The rifle association was out this morning in full force at the range on Groat's flat. The ranges are from 200 to 900 yards. To-day is devoted to class firing and ammunition is free.

The Pincher Creek Echo reports that Mr. Ullinson, teacher at the church of England mission on the Pincher reserve recently had the thumb and two fingers of his right hand blown off by a dynamite cartridge.

The Gallagher-Hull company are in receipt of orders for a car each of their long clear bucons from Winnipeg and Vancouver. This will be the fifth car they have shipped to Vancouver this season. They have also shipped four to Victoria.

Three prisoners left on Saturday for Stony Mountain and one for Regina in charge of Sgt. Radd and Constables Shearman and Hogan. The prisoners were L. Trombley, of Great Slave sentenced to three years in penitentiary for stealing furs at Fort Resolution; R. Kanish, sentenced to two years penitentiary for stealing a buggy; and Nils Johnson sentenced to three years penitentiary for stealing property of the murdered Peter Johnson, and Robert Thompson, sentenced to a year in jail for shooting within intent to injure, at Leduc. Constable Shearman and Hogan will remain in Regina.

D. W. and A. S. Iddings, of Dayton, Ohio, arrived on Saturday on a tour of inspection of the Northwest accompanied by Chas. Mafr, of the Canadian immigration service. They are spending some time in driving over the Edmonton district. They were unfortunately enough to be mixed up in one of the numerous wrecks on the C. & E. The train missed the track in a slough somewhere near MacLeod, and several cars were ditched. The car they were in remained on the track but they made the trip to Calgary in a hand car, with the result that they caught severe colds. Mr. Fisher who was a member of the party, had an attack of rheumatism and had to go to Banff for a time.

NEW ADVERTISEMENTS.

EDMONTON BULLETIN, SEPT. 1st, 1902.

A STRANGE HUMOR.

The Courier de St. Hyacinthe, Que-
bec, says:

"Does not Mr. Tarte's present activity court for something? Hearing all his speeches during his late Ontario tour, and it will be seen that he rarely speaks of his leader, but rather of himself. He is an old newspaper man, and he knows what to do in order to have public opinion centered upon him. Mr. Tarte never takes a step without the whole country knowing all about it. One would say, in fact, that he was the whole government, and Mr. Tarte has certainly some object in view. Sir Wilfrid will perhaps leave the scene sooner than most people expect. He was sick last winter, and is still a sick man. Should a serious crisis occur, he will go to the supreme court, or perhaps, to private life, now that he has a fortune. Mr. Tarte will come to the front and impose himself upon the party. Mr. Fielding is, of course, well liked, and a year ago he would certainly have succeeded Sir Wilfrid had anything happened. To-day, however, he will have to consider Mr. Tarte, who is audacious and seems to have made himself all right with the English. He has likewise the influence of the Canadian Pacific and the protective element, which is stronger than even in the country, and of which he is the determined champion, while Mr. Fielding is hostile. For the old rouses of Quebec, Tarte cares no more than for his shirt. He has successfully defied Beaudet, Pretyne and Bernier, and all the clubs, and is stronger than ever in the French-Canadian liberal party. They however, will make an effort to prevent him from becoming leader, but it will only be the work of young enthusiasts, pushed on by more prudent men who will have to be in the lurch for the least compensation."

No doubt the Courier is a conservative paper, for it does not see to what end its argument logically carries it. The advocacy by the minister of public works of the high tariff, last Atlantic line and C. P. R. policies of the conservative party qualifies him much better for the leadership of that party than of the liberals, whose traditional policy he is said to oppose. Possibly he could carry with him into the high tariff camp a wing of the present liberal party, and the leadership might well be the price of his doing so. Some of our friends who at the recent elections "Couldn't Stand Tarte," may have the chance of "standing" him, or repudiating their party, before very long, if the Courier is well informed and reasons correctly. It is only fair to the very energetic minister of public works to say that he never claimed to be a liberal. That he has always declared himself a protectionist, although in alliance with liberals and therefore for the time submitting his views on the tariff to their ideas.

THE CONTRAST.

It must be interesting reading for the loyal men of Cape Colony and Natal to role the honors paid to the Dowry general by all England from the London mob to royalty itself.

And Australians and Canadians who made no light sacrifices for the empire may very well be tempted to contrast it with the following current news item showing how Britain treats her friends.

"Sydney, N. S. W., Aug. 22.—An inquiry into the death by overworking on the army transport Dryad, which brought two thousand volunteers from Natal, revealed a shocking condition of affairs during the voyage. Col. P. Lyster, who was in command of the troops, said they sailed four hours after embarkation, and that this made it impossible to make a protest. Other witnesses said the crowding of the boat was aggravated by a case of putrid eczema in the hold, which caused nausea. This was finally shown overboard. The regimental liquor was bad, and this encouraged the illicit selling of intoxicants. There was much drunkenness aboard. There were 120 stowaways on the ship. Since the arrival of the Dryad, five or six of the troops have died. A telegram from Wellington says twenty men who came on the transport Britannia have died from similar causes since they arrived in New Zealand."

It may be highly honorable and magnanimous to forgive an enemy but there are other names for such exhibitions of loquacity to the late and present enemies of the empire when accompanied by such contrasting treatment of its friends.

Ponoka Herald: T. A. Lavioie and wife left Saturday for Edmonton where they will again take up their residence. Mr. Lavioie has very ably conducted the Royal Hotel for the past four months and the people of Ponoka regret to see them leave the village. Tom expects to take a trip to British Columbia before engaging permanently in business although several positions have been tendered him.

CANADIAN MONEY IN KENTUCKY

While people from the Western States are investing so largely in lands in the Canadian West it seems strange to read of the purchase of a vast tract of land in a state so old as Kentucky by Canadian capitalists. There is no doubt that in the past more Canadian money went into the development of the United States than did United States money into Canada. That was one reason of Canada's slow progress. It was hoped that the drain had stopped, but apparently it has not.

"Jackson, Ky., Aug. 21.—The large boundary land situated in Breathitt and Knott counties, Kentucky, embracing 120,000 acres, belonging to the Breathitt Coal, Iron and Lumber company, has just been sold through Mrs. Helen B. Landdowne, of Covington, Ky., the largest stockholder, to Canadian capitalists. This is the only tract of land in Kentucky containing over 100,000 acres in one continuous boundary. It was patented under a special act of the legislature, and the law was repealed the following session. Before and since that time, but 200 acres of land could be "taken up" or patented by one person.

"Lawyers have passed favorably upon the title. Among them are the Hon. John G. Carlisle, former governor Stevenson, former Appellate Judge James, and Judge James P. Murray. Their opinion has been sustained by a recent decree of the court of appeals, written by Judge Thomas H. Paynter. "This valuable property extends 35 miles through the eastern part of Kentucky, and is underlain with fine coal and iron ore, and has the finest virgin timbers, with every indication of oil."

No Protection Sentiment

Among Liberals.

Free Press: The Ottawa Journal has been collating the views of representative liberal journals on the cool proposition of the Canadian manufacturers that they should be given the benefit of a great increase in the tariff, and as the result of this examination, it says:

"In the liberal press of the Dominion appears an almost unanimous answer to and defiance of the resolutions and utterances at the recent meeting of the Canadian Manufacturers' Association calling for higher duties. Something of the old liberal feeling has awakened. A resentment is evident at the confidently-expected tone of the manufacturers concerning increase of the tariff at the next session of parliament. Apparently, if the newspapers represent any important shade of liberal opinion, the old free-trade and revenue tariff heaven are working again in the liberal party. Increased protection will not be tolerated without a struggle. From north to south, from Atlantic to Pacific, the leading liberal papers are in chorus. A challenge is issued to the protectionists."

The Journal quotes the opinions of five newspapers which can lay claim to be representative of liberal opinion—the Halifax Chronicle, the Montreal Herald, the Toronto Globe, the Hamilton Times and the Manitoba Free Press—and shows that they take precisely the same position. It goes on to say:

"If Sir Wilfrid Laurier chooses, therefore, to turn his face against the increased protection which the manufacturers expect, he will apparently have the liberal press unanimously at his back. And that his disposition at present is not favorable to concessions to the protectionists would appear to be illustrated by some passages in his English speeches, in one of which, referring to the question of free trade within the empire, he said that in so vast an aggregation local interests could be the same everywhere. There would have been a great blessing to the British empire if it could unite on a commercial policy, but he doubted whether this could be done, so diversified were the interests at stake. 'Yet, had it been possible to have in the British empire supreme and universal free trade, that would have conducted not only to the strengthening of the imperial bond, but to the general advance of civilization.' 'It would appear from this speech,' comments the Toronto Globe, 'that Sir Wilfrid Laurier believes that the road to the increasing of imperial trade lies not in increasing but in reducing taxation.' The Journal is free to hope so."

The Journal's hopes are well founded. The liberal party has never been protectionist, is not now, and never will be. The policy of the liberal party is made by its members, who, almost to a man, are firm in the belief that the proper tariff for this country is one as low as the revenue requirements of this country will permit. In the judgment of many of them the time is opportune not for an increase, but for a decrease in the tariff. If the liberal leaders undertook to commit the party to high protection they would find speedily that they were leaders with nobody to head. However, there is no fear of anything of this sort happening. The liberal government accurately represents the views of the members of the party on this point. Sir Wilfrid Laurier is we are convinced, as firm in the faith as he ever was, and he is surrounded by colleagues who have no intention of taking seriously the suggestion of the manufacturers, but the assumption that the liberal party could afford to entertain for a single moment the proposition that it should enact a protective tariff is simply an absurdity.

H. D. JOHNSON,

Architect.

PUBLIC NOTICE.

Meeting of the members of the Edmonton Mechanics Institute will be held in the rooms of the Institute in the McLeod Block, Jasper Avenue, Edmonton, on Tuesday, the 9th day of September, 1902, at 8 p. m., for the purpose of electing officers as required by Sec. 3 of the Mechanics and Library Institute's ordinance.

GEO. GOODALL,

Secretary.

R. T. Williamson,

Treasurer.

First publication of this notice 22nd August.

WANTED.

Strong boy, to work in Bulletin office.

87-91

NOTICE TO CREDITORS.

Of Frederick M. Shoults, of the Town of Edmonton, in the Northwest Territories, Merchant Tailor.

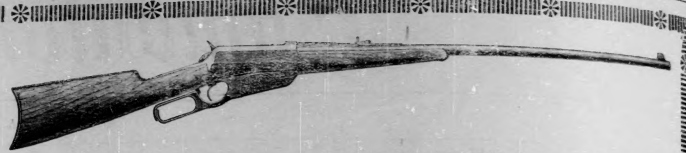

In the Supreme Court of the Northwest Territories Judicial District of Northern Alberta,

In the matter of the "Judicature Ordinance," and in the matter of a certain assignment for the benefit of creditors, dated the 8th day of August, 1902, wherein Frederick M. Shoults, of the Town of Edmonton in the Northwest Territories, Merchant Tailor, is assignor and James J. Dunlop is assignee and trustee.

NOTICE IS HEREBY GIVEN, that pursuant to the order of the Hon. Mr. Justice Scott, made herein and dated the 11th day of August, 1902, ALL CREDITORS AND OTHERS, having claims against the trust estate above mentioned are required to send in to the above named trustee their claims against the trust estate, verified by statutory declaration, together with the statement of the securities (if any) held by them addressed to James J. Dunlop, Trustee of the estate of Frederick M. Shoults, P. O. Box 94, Edmonton, N. W. T., on or before the 1st day of October, 1902.

AND NOTICE IS HEREBY GIVEN that, pursuant to the provisions of the said Judicature Ordinance, and the expiration of the time so fixed as aforesaid, the trustee may be at liberty to distribute the trust estate of any part thereof by amongst the parties entitled thereto having regard to the claims of which he, the said trustee, James J. Dunlop, has then notice, AND he, the said trustee, shall not be liable for the distribution of any part thereof, so distributed, to any person whose claim he, the said trustee, shall not have had notice at the time of the distribution of the trust estate or part thereof.

Dated at Edmonton, this 15th day of August, 1902.
BOWN & ROBERTSON,
Advocates for the said Trustee.

WHITE WHALE LAKE.

Our settlement is slowly but steadily growing on both sides of the reserve. Nothing has yet been definitely heard from the post office department as to whether they will grant our petition for a new postal route with offices here and at Lake St. Anne.

Crops are looking very fine, and harvesting of both wheat and oats is now in order. The hay crop is a magnificent one and both white settlers and Indians are putting up a first class lot. The Stomies are certainly doing better this year than ever before, at having plowing, house building and berry picking. They are staying at home more, and working well.

The new farm instructor, Mr. Pattison, has got a firm grasp of the reins and his influence is already felt. Let us hope that "this days may be long in the land."

The berries were very plentiful again this year, the supplies of sugar and dishes being exhausted long before the berries were done.

The C. P. R. has already disposed of a good many quarters sections in this part of the country.

A recent visitor here declared after travelling over Manitoba and the Northwest, the White Whale country was the prettiest he had yet seen. He evidenced his belief by purchasing three quarters of C. P. R. land.

Settlers are gradually waking up to the fact that rolling land is preferable, especially in wet seasons. And our experience proves that a thick layer of black mould is not essential to successful grain growing. We defy any other part to surpass our growth of grasses, especially of pea vines. Surely this is an ideal country for stock.

RAE.

A heavy rain and wind storm accompanied by a scattering hail raged for about twenty-four hours Thursday night and Friday.

Quite a number from here attended the St. Emerance picnic on the 20th inst. The picnic was a decided success resulting in a fair sum of money for the aid of the new Catholic church which is in course of erection at Riviere Qui Barre. Miss M. Donovan won the handsome gold bracelet in the St. Emerance picnic contest, and her numerous friends much congratulated her. Miss Sarah B. McDonald left here this week for Edmonton to resume her studies in music and stenography.

The smith, Ed. Suddaby, has repaired a number of binders this week which goes to show that cutting will become general in a few days.

Aug. 29, 1902.

PRINCE ALBERT.

Advocate, August 25.—Cutting commenced on a number of farms in Colyton this morning, and by to-morrow it will be general throughout the district. Some patches of barley in other sections were harvested last week, and preparations made to commence on the wheat crops, which will yield heavily this year.

Cutting has been going on in the Northern district for the past week, and the work is now almost through, the crop being saved in excellent style.

Where are We At.

Commenting on the recent action of Judge Meagher, of Halifax, in committing a prominent Halifax merchant named De Wolf to jail for contempt of court because of De Wolf's expressions on the public street regarding the judge's action the Toronto Telegram says:

"The recent performances of the British Columbia and Nova Scotia judges are enough to make people pause and ask whether they are living in Canada or in the middle ages. British subjects seem to have no liberties which the judiciary of this professedly free country is bound to respect. It is 'contempt of court' for an assemblage of business men to get a photograph on the front steps of a court house. Some learned British Columbian or Nova Scotian judge might as well decide that the hired girl is 'in contempt' because his morning coffee is cold. Three months would be a penalty suited to her crime and the aggrieved judge could hand the man who attends the furnace over to the sheriff for six months because the house is not warm."

"The spectacle of a Nova Scotia judge walking the streets of a Canadian town with a sheriff at his back and call to carry British subjects into jail without trial by jury or other process of law is enough to put the climax to a long chapter of official arrogance. The liberty of the humblest citizen is of equal value with the dignity of the highest court in the realm. The Nova Scotia assault on the liberty of the subject is even more inexcusable than the performance of the British Columbia judiciary. There should be proceedings at Ottawa even to the length of an impeachment process that will enable the high court of parliament to express its disapproval of judicial trifling with the liberty of the subject in Nova Scotia, British Columbia or any other province."

Calgary Herald, Aug. 27.—Leighton McCarthy, M. P., and the other liberal members of parliament who were here yesterday, were shown about the town by Colonel Sanders. In the afternoon they were driven out to the government farm, Dr. Lafferty and I. McBeth joining the party, where they were entertained at dinner by P. Burns and some of his staff. They went out this morning.

The Late Hon. Joseph Royal.

The Free Press publishes the following sketch of the life of the late Hon. Joseph Royal:

The late Hon. Jos. Royal was born at Repentigny, P. Q., May 7, 1833. He was educated at that place and St. Mary's (Jesuit) college, Montreal. He commenced a journalistic career on La Minerve, Montreal, in 1857; established L'Ordre in 1859, and founded Le Minerve, Montreal, in 1867; established in 1864. In that year he was called to the bar, but continued to follow literary pursuits. Deceased gentleman took an active part in organizing the Papal Zouave brigade, sent from Quebec to the assistance of the holy father, 1867-68.

In 1870 Mr. Royal removed to Manitoba. He established at Winnipeg the paper Le Motus, which in 1882 became Le Manitoba. From this time until 1880 he was in active practice at the local bar, and was retained in many notable cases, including the defense of the prisoners Lepine and Naud, who were tried at the Manitoba criminal assizes October, 1874. In that year he was elected to the provincial government of Louis Riel. He was elected to the first legislature given to Manitoba, 1870, and remained a member of that body up to December, 1879, when he was returned to the House of Commons. He was elected to fill the office of speaker in Manitoba; and was subsequently a member of several local administrations, being successively provincial secretary, attorney-general and minister of public works therein. He continued to sit in the House of Commons till appointed lieutenant-governor of the Northwest Territories, July 1, 1885. He was elected vice-chancellor of the university of Manitoba, 1877, and was appointed a commissioner for the revision of the statutes the same year; He was awarded the confederate medal by Lord Lansdowne, 1885, and was elected to the Royal society of Canada, 1883. On ceasing to be lieutenant-governor, 1883, Mr. Royal came east, and was appointed editor in chief of La Minerve, December, 1884, in succession to the late Hon. Joseph Thase. This position he filled up to his death. The flag in St. Boniface were at half-mast yesterday, out of respect to the memory of deceased, his son Henri being mayor of the town, and the late Mr. Royal an old resident.

Revision of Cree Bible.

Tribune; Next Tuesday the committee organized by the British and foreign bible society of England will begin the work of revision of the Cree bible. The committee is composed of representatives from the various bodies laboring among the Crees, the Church of England and Methodist, with manuscript help from the Presbyterian church. The bishop of Athabasca, in the absence of his grace the archbishop, will preside. The meetings will be held in St. John's college. Other works of revision are in contemplation. The present edition of the Cree bible, which will form the basis of revision, is practically exhausted.

STRATHCONA.

Philadelph. Aug. 29.

The young of the Presbyterian Christian Endeavor Society held a very enjoyable picnic at Garneau's grove on Monday afternoon.

Mrs. D. Darling and her little daughter Doris left on Tuesday for their home at Everett, Wash., after an extended visit with friends in Strathcona and Edmonton.

Mrs. J. J. Duggan, Mrs. A. McLean, Mrs. E. F. English, of Strathcona, and Mrs. H. Wilson, of Fort Saskatchewan, left on Tuesday for Banff where they will spend a couple of weeks.

A meeting was held in the fire hall last night for the reorganization of the Strathcona brass band, officers elected and arrangements made for regular practice and for the purchase of new instruments. The name adopted was the "Strathcona Fire Brigade Band." The following are the officers: President, J. J. Duggan; vice-president, W. H. Sheppard; secretary-treasurer, V. Richards; band master, Fred Richards.

Bugler William Tipton, son of Judge Tipton, of this town, came home from South Africa on Wednesday's train. He is well and hearty and looks as though the trip had agreed with him well. The war having ended before his regiment reached the scene of action he saw no active service. Other members of the last contingent which went from here, Turnbull, Martin, Brown, Thornton, Mitchell, are still in the east but are returning later. Mr. Tipton met Dr. McMillan, formerly of Strathcona, in Durban. He expected to settle for the practice of his profession at Johannesburg.

The big gate of Wednesday afternoon laid down Strathcona's coronation arches, which fortunately had served their purpose and were ready for destruction. They brought with them telephone and electric light wires to the ground but did no more serious damage.

Mr. A. L. Marks received official notice this week that he was one of the successful candidates for first class certificates in the recent teachers' examinations. Mr. Marks' success places Strathcona first among the towns of the Territories in the number of first class certificates secured this year.

F. C. Jamieson, of Strathcona, and H. C. Taylor, of Edmonton, went to Wetaskiwin, to attend the sale of the bankrupt stock of Mr. Lawrence, lately taken to Wisconsin to answer a charge of wholesale swindling. The stock was purchased by Winnipeg parties who will start business in Wetaskiwin.

The first and second class teachers' normal opens at Regina on Tuesday next. Strathcona sends twelve students. The following are their names: Misses K. Lawford, C. Boyle, C. Ritchie, E. J. McCartney, I. Shaw, M. E. Langton, E. McWhinney, and Messrs. E. Carmichael, A. L. Marks, D. Bisset, A. Bisset, D. Currie.

Dr. W. McIntyre, a brother of Coun. M. McIntyre, of Strathcona, arrived this week from the east and expects to begin the practice of the medical profession here. Dr. McIntyre has been practising for some time in the city of Toronto.

The Mystery of Prices.

Globe: A congressional committee investigating the difference between the prices charged at home and those charged abroad by protected American manufacturers has been unable to carry out its work. Congressman Griggs has offered a reward of \$100,000 for a copy of the "special discount sheet" used by American exporters, but no one has accepted the offer. The Montreal Journal of Commerce suggests that Congressman Griggs had been judiciously circulated in Canada. Although the special discount sheet has not been secured, sufficient evidence has been gathered to give some intimation of its contents. The facts collected have been obtained from friendly exporters, and are contained in the ordinary discount sheets, the "special" sheets being still concealed. Wire nails are well protected, ostensibly to defend the well paid American workman from the competition of underpaid foreigners. But the nails made by the American workman are sold abroad at \$1.30 per keg and are sold to the American workman at \$2.25 per keg. Wire rope is sold at home for \$12 per coil and abroad for \$5 per coil. The price of lead does not differ so widely, as it is \$4 per cwt. at home and \$2 per cwt. in foreign markets. In barbed wire there is more consideration for the local consumer, as he gets it for \$3 per cwt. while the foreigner pays \$2.20. The price of shovels per dozen is \$7.50 at home and \$5.80 abroad. Washboards sell for \$3 and \$1.50 per dozen. Pick meat chops at \$2.70 and \$1.50. Alarm clocks maintain the usual regular proportion, selling for 60 cents at home and 30 cents in other countries.

Lawn mowers, which sell for \$4.25 in the country of manufacture, are sold elsewhere for \$2.75. The typewriter, which sells at \$100 in the United States, is exported at \$55, and the sewing machine which cost the American operator \$40 is sold to outsiders for \$17. Tin plate, produced by an industry classed as a triumph of protection, is sold to the domestic consumer at \$1.19 per cwt., and to the foreigner for \$3.19. A Bradbury piano sold in the United States for \$375 is quoted for export at \$300. An instance is given of an American made machine sold in Chicago for \$1,000 and in Canada for \$500, the Canadian importer being required to

pay duty on the Chicago price. A peculiar experience in Mr. Griggs' quest for information was the refusal of five leading newspapers in New York to print his advertisement offering to pay for one of the special discount sheets. It is evident that the export prices represent a natural and legitimate line of business, not adopted for the "slaughter" of surplus stock, but pursued for the profits it affords. And these profits come in spite of the high wages supposed to be paid the American workman, and supposed also to necessitate the tariff that makes the high local prices possible. Most men prefer two dollars to one dollar, when the former can be obtained for the same quantity of goods and the same outlay in capital and effort, so we cannot be surprised that the protected interests in the United States charge as much as the tariff allow. Hardware men have perpetrated gross frauds on the manufacturers by ordering nails from Britain, shipping them there and returning them across the Atlantic, under the law permitting the free return of exported American goods. There is as yet no law to punish the people who practice such deception, but the matter has been called to the attention of congress.

Conservative Policy.

"Candor" in the Winnipeg Tribune gives his opinion of the conservative party policy as follows:

"Hon. Mr. Borden, leader of the conservative party in the Dominion, is coming west. Does the average Tory ever sit down and think how long it is going to take his party to get into office at the rate it is moving? Has it any claim on the people for their support? It continues to advocate the protection now championed by the Laurier government, it invariably joins hands with Laurier when he is extending further financial aid and other favors to the corporations. The only hopeful sign is the number of what are called kickers within the ranks, who in reality are the men of foresight and have the best interests of their party at heart. If Mr. Borden has nothing better than the old played out national policy, railway subsidies, the rank old senate policy, party preferment, etc., in the civil service, to talk about, he will meet with little encouragement in the west. Hugh John Macdonald struck the nail on the head when he came out for free farm implements. His sincerity has been doubtful, but it is chargeable with inconsistency? His father only calculated that the N.E. was to organize until the industries had passed their infantile stage, and now they have reached their majority, and they complain that with an advantage of twenty cents on every dollar, referring particularly to farm machinery, they cannot meet the world's competition; they even grieve about the preference extended to the mother country, and their patriotism is a mighty small concern when it hits their pocket, whereas, they evangelically preach to the farmer that he must be patriotic to his country?"

The selection of a proper food for the baby is of vital importance. It must be nourishing, easily assimilated, readily digested, and must never vary in quality. Nestle's Food has all these requisites. It is made from cow's milk—the most nourishing of all substances—and requires only the addition of water to be ready for use. Samples (sufficient for eight meals) sent on application to LECHE MILK CO. MONTREAL.

 Total attendance in public and high school departments, 376

Quite a number of pupils who were promoted before holidays did not attend school during August. This is particularly the case with a number who were promoted from Department II to Department III. (from Miss Barker's to Miss Miller's room.) Parents are requested to see that the pupils concerned begin school as soon as possible.

The monthly reports to parents for students in Sections VI, VII and VIII (high school department) have not been sent out for August, as school was open only ten days during the month. There were, in August, thirty-three names on the roll on the high school department.

Yukon Politics.
 Advice from Dawson of the 25th inst. The first political convention ever held in the Klondike is taking place today.

It is to nominate candidates for the Dominion House. No decision has yet been made, but Mr. Fred Wade, crown prosecutor, and Mr. Joseph Clarke, of the News, are the leaders in the running so far. Mr. Wade is expected to arrive this evening, and a statement will be secured from him as to whether or not he will run. He is probably the strongest man in the country, with all classes, and his experience as an official has given him an additional standing which would be certain to carry him through if he agrees to stand.

Governor Ross would have been nominated as the first choice, but he utterly declined to have his name considered. Delegates are in attendance from all sections of the Yukon.

Canada's Exports.
 Ottawa, Aug. 19.—Canada's export of wheat for the fiscal year, ended June 30 last, according to unverified figures, amounted to 26,446,357 bushels, valued at \$26,410,101, as compared with 18,796,252 bushels, valued at \$13,662,500, for the year previous, an increase of 92 per cent. Great Britain was our largest customer, taking from us 23,271,976 bushels. The United States bought only 15,056 bushels, but Belgium took 1,737,376 bushels, and Germany 1,002,533 bushels. In 1901 our exports of wheat were: Great Britain 17,766,772 bushels, Belgium 397,585 bushels, Germany 361,102 bushels, Italy 278,140 bushels, France 91,550 bushels, United States 53,180 bushels.

The export bacon trade last year amounted to \$12,163,505, an increase of \$666,024 compared with the preceding twelve months. Of the total Great Britain took no less than \$12,119,342, or \$660,000 more than in 1901. The United States bought \$42,599, an increase of \$5,881. The export of ham last year aggregated \$24,485, or \$14,000 below that of the previous year.

Butter exports increased \$2,311,000, the total for 1902 being \$5,667,150 and for 1901 \$3,356,157. Great Britain took \$4,065,495, the United States \$415,554, Newfoundland \$47,066, and other countries \$113,005. The exports of cheese fell off \$1,250,000, amounting last year to \$19,870,072.

The exports of eggs last year totalled \$1,736,141, being an increase of \$43,845. The purchasers were: Great Britain \$1,691,024, United States \$38,663, other countries \$6,454. The shipment of poultry totalled \$238,175, or \$96,653 better than in 1901. Nearly all went to Great Britain, only \$7,612 being shipped to the United States and \$14,000 to other countries. The export of

potatoes totalled \$689,860, as against \$366,410 for 1901, an increase of \$323,450. The United States bought \$328,625 worth, as against \$181,103 in the year previous.

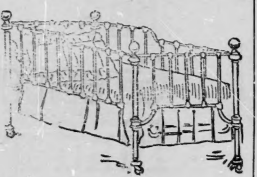

WETASKIWIN.

Times, Aug. 28.
 Another very sad death occurred during Saturday's storm, about seven miles east of town when Anton Christian Nelson was struck by lightning and instantly killed. Mr. Nelson was employed by Mr. Linde, and was in the hay field when the storm came on. Having unhitched the horses he crawled under the wagon for protection. Mrs. Linde was also under the wagon, and a gust of wind blew her hat off. Anton went after the hat when the bolt came and killed him instantly. The shock also affected Mrs. Linde and one of the horses, but they have since recovered. He had only been in this country about six weeks, coming direct from Hagen, Denmark, where he leaves an aged mother. He was aged about twenty-seven years.

Quite a number attended the immersion of several parties in Battle river, near the iron bridge, on Friday afternoon last. J. J. Ron, a evangelist, who has labored earnestly and zealously in the vicinity for some weeks, conducted the ceremony. We understand he will draw his work here to a close soon, returning to his home in Bracebridge, Ont.

On Wednesday of last week, one of the saddest deaths on record occurred in this district when Roger Cherrington, jr., passed to the great beyond. A few days previous to his demise he had a doctor lance what seemed to be a boil on his face, which developed into blood poisoning and the patient was soon in a very precarious condition. All that medical attendance and careful nursing could do was of no avail and death came to the relief of the unfortunate sufferer.

Mrs. G. F. Potter, sister of Mrs. R. M. Angus, of Angus Ridge, who has been on an extended visit here, left on last Thursday's train for Dawson city to join her husband, who has been in the Klondike for the past three years. Sackville West spent several days of the past week with Edmonton friends. Penon Park item: Harvesting is the order of the day. The barley and wheat will be all cut this week; its all in fine condition having had no frost.

IRON BEDS

Springs and Mattresses

These Beds are recognized as the most healthful, most stylish, most modern, cleanest, and altogether the most desirable. STEAMER FOR THE SASKATCHEWAN

A meeting was held in the council chamber on Saturday evening to consider the putting of a steamer on the Saskatchewan to handle local trade. J. A. McDougall was chairman and F. Fraser Timms, secretary. Amongst those present were: C. Gallagher, D. R. Fraser, J. Walter, Thos. Bellamy, E. C. Emery, G. H. Graydon, A. C. Fraser, T. W. Lines, F. Oliver, Messrs. Dobson, Bishoprie, Killen, Gilbert and others.

The discussion was quite informal. The idea of placing a steamer on the river arose from the large amount of local trade now being done by flat boat to points down stream. The condition of the roads this season and the large increase of settlement in the Beaver lake and Vermilion districts made a boat an absolute necessity for the present convenience of the people in the new settlements, and to hold their trade for Edmonton and Strathcona. It would be some years before the railway would be completed and it would be well for Edmonton to have the trade established before the railway was built. Figures were not at hand to show the amount of freight which had gone down the river this season but all agreed that it was very large, and would necessarily increase. There was also a large trade to be done up the river. Settlement now extended to the White Mud, 60 miles up, and the lumber and coal industries could not be developed without a steamer. Already Messrs. Lines and McDougall & Fraser had communicated with several steamboat building firms in the States as to the probable cost of a boat of the necessary dimensions and capacity. The letters in reply were read to the meeting. That from the Marine Iron Works, of Chicago, which had supplied the machinery for the tender to the Otter dredge, was very full and satisfactory. They had figured on a boat 130x28, to carry 75 tons drawing 18 inches of water. It was thought that fifteen to twenty thousand dollars would be needed to put such a boat on the river and run it for a season. The Northwest which was the last steamer used by the Hudson's Bay Company on the river was 200 feet long, 28 feet beam, and drew 3 feet of water with a load of 300 tons. A motion was carried unanimously that it was desirable to place a steamer on the Saskatchewan for the purpose of doing local trade. Messrs. T. W. Lines, T. Bellamy, E. C. Emery, D. R. Fraser and J. Walter were appointed a committee to collect further information and to draw up a prospectus, as a preliminary to asking subscriptions to the stock of a company.

INNISFAIR

Free Lance, Aug. 28.

The annual fall fair of the Innisfair agricultural society will be held on Friday, October 3rd next.

Justice Cruikshank has been appointed by the department of agriculture at Regina, to value damage to crops in the Innisfair district by hail this year. Mr. Cruikshank has all the necessary forms etc., and insured parties suffering loss from hail should communicate with him at once.

Skill Innisfair grows. The latest addition is an office building opposite the postoffice, to be used, we understand, by Mr. H. Douglas, Dominion lands agent.

A windstorm struck town last evening shortly after 8 o'clock. Great clouds of choking blinding dust were swept along by the wind, making it almost impossible to remain while the gale lasted, which was about an hour, though a moderately strong wind prevailed all night. So far as can be ascertained no damage was done by the storm.

Haying has been in full swing for the past couple of weeks, and grain cutting has commenced in some localities. Immense quantities of hay have been put up and the quality is said to be even better than usual. The early grain is in splendid condition, and there is every indication that as harvest advances the whole grain crop in this district will prove to be much superior in every way to that of last year.

Calgary Herald, Aug. 29.—The government observer reports that the thermometer went down to 32 degrees during the night. There was no dew and no news has come of any damage and the flowers in Calgary are still in bloom. About 5 miles northwest a rancher reported there was a little ice on a pan near his door but he saw no evidence of frost on the ground.

MACLEOD.

Advance, Aug. 26.
Gordon & Ironsides, cattle buyers, will ship a train load of export cattle to-morrow. The Cochrane ranch will also ship a train load next week.

Mr. William Brown, a young man of about 23 years of age, and a nephew of Mr. A. J. Whitney, of Kipp, met his death by drowning on Friday evening of last week, while crossing the river near R. Urdals ranch.

Tuesday and Wednesday, September 9th and 10th, are the dates upon which the annual fall fair of the Macleod agricultural society will be held this year.

Harvesting will be general throughout this district all week's time. The weather continues perfect and the large fields of wheat, oats, barley, flax, etc., are beginning to show the ripening effect of the bright sunshine.

Willow Creek went out on a bit of a tear last week. For a day or two the flooding of this stream was attended with great danger. Sheep Creek went up and carried out the railway bridge, blocking the line for a week. It is said that a cloudburst in the foothills was responsible for this, the third flood during the past season. The Old Man river at this point was coupled off, but not high enough to cause any damage.

Commissioner Perry, who arrived from Regina last week to attend the funeral of the late St. Joseph Hove, left on the 21st for Limerick Creek, at which point he expected to purchase remounts for the force. We hear that a head of fine horses were purchased and are now in the stables here. The commissioner afterwards went on to Lethbridge where he expected to purchase additional animals. The horse-flesh now being collected is intended for service in the Yukon.

The department of public works of the Northwest government announces the adoption of new regulations regarding the leasing and fencing of roid allowances, in the ranching districts, which will no doubt interest those concerned. A year ago the Department passed regulations providing for leasing of roid allowances, which were not required by the public or were not fit for public travel by reason of natural features, a lease rental of \$4 per mile being charged. It was claimed by some that this rental was too high, and the department, after full consideration, has decided to reduce this to \$2 per mile, but at the same time to insist upon a strict enforcement of the regulations. Applications for leases will have to be made to the department before the 31st inst., failing which proceedings will be taken under the ordinance for the illegal obstruction of the public highways. Having acceded to the contention of those who desired reduction in the rental, the department will insist upon a strict enforcement of the law, on the new basis.

Fort William, Aug. 29.—A head on collision occurred this afternoon at West Fort William between two Canadian Northern trains, wrecking both engines and putting several cars into the ditch. One was a switch engine and the other a freight train. No body was injured.

PONOKA.

Herald.
Abraham Solvois, from near Duhamel, was in Ponoka, last Saturday to make entry on his second homestead. Mr. Solvois is now seventy-five years old and is an old timer in Alberta, having received patent for his homestead here as early as 1876. He is the second applicant in the Ponoka office for his second homestead, as the number received patents prior to 1889 is decidedly limited.

A licensed hotel will soon be established at Morningside. J. Nicholson is now erecting a building there for that purpose.

Grain is maturing rapidly and harvesting will soon be general.
J. A. Fairley, R. E. Walker and the Misses Aggie Fairley and Ola Fowler were passengers to Edmonton Saturday on a combined business and pleasure trip. They returned Tuesday.

Mrs. Pringle had some oats cut on Aug. 27th. Edmund Christie cut some spring wheat the same day which will go 40 bushels per acre.

A fine bunch of timothy was brought to this office by Chas. Cherke. He has about fifty acres of raw land seeded to this grass which makes splendid pasture for his stock. Chasley also brought a turnip from his garden weighing thirty-one pounds—not a bad showing for this early in the season.

MARRIAGES.

Faulkner—McLellan.—At Strathcona, on Monday, August 25th, by the Rev. D. Flemming, Miss Eleanor F. McLellan to Mr. George A. Faulkner, of Conjuring Creek, Alberta.

DEATHS.

Brewster.—At Edmonton on Sunday, August 31st, Dalton Gordon Brewster, son of Mr. and Mrs. W. H. Brewster, Nanay avenue, aged 7 years and 6 months.

The funeral takes place on Tuesday at 2 p. m. to the Edmonton cemetery.

THE FROST & WOOD BINDER is still in the lead.

The
Greatest
Binder
On Earth

We tell farmers this as we understand that through some mistake a few have bought other Binders.

KELLY & BEALS, Agents for The Frost & Wood Co., Ltd.

The Alberta Land Company

Has 20,000 acres of as fine land as can be selected in Beaver Lake, Vermilion and Birch Lake country.

These lands are adapted to both raising grain and stock. There are three lines of proposed Railroads running through this part of the country. These lands can never be bought cheaper than now. We are selling every day and they are not going to last long. Improve the opportunity and place your money where you are sure of securing a good profit by the investment.

Many invest in Mining, some in Oil, some in Bonds; only a few reach the goal; the rest find their hard earned money gone with only a piece of nice paper to tell the story. Why not buy a piece of land one-half mile [] to look at and see it increase from year to year in value until it makes you and yours a nice little fortune? It will surely come. It is only a question of time.

We solicit your trade. Call or write and get maps and information of these cheap lands.
